

# DT20

## Laser Distance Meter

Digital Tape

Bluetooth

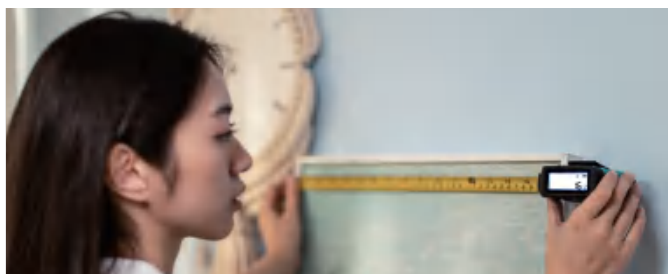

Laser Measurer

# FEATURES

## Dual Measure Mode

Flexible switching between digital tape measure mode or laser measurement mode for area/volume measurement

## Digital Measuring Tape

Digital tape make reading more intuitive

## Bluetooth

Bluetooth transmission module for data calculation and data output

# DT20 TECHNICAL PARAMETERS

Laser Measurer			
Model	DT20	Range	20~40m
Accuracy	±(3mm+5x10 <sup>-5</sup> D)	Reference	Top/Button
Measuring Units	m/ft/in/ft+in	LCD Type	2" Black Screen
Bluetooth	Optional	Single Measurement	√
Hand Strip	√	Area Measurement	√
Volume Measurement	√	Pythagoras(2-Point)	√
Memory	20/50(Bluetooth Version) Sets	Battery Type	Rechargeable Lithium Battery
Laser Class	Class 2	Laser Type	630-670nm, <1mW
Operating Temperature	0°C~40°C	Storage Temperature	-10°C~-60°C
Laser Auto Shut-off	30s	Auto Power Off	180s
Tape Measurer			
Length	5m	Tape Accuracy	±1.5mm
Digital Accuracy	±2mm	Blade Width	19mm
Horizontal Stand-out	≥1.8m	Area Measurement	√
Volume Measurement	√	Tape Unit	ft/in
Dimension(mm)	82*82*44	Weight(g)	270
