FEATURES

Market-First Modular Laser Digital Tape

The DT50 ingeniously marries conventional tape, leading-edge new-era digital tape and laser measure in a unique modular design. Assembly and disassembly are at your fingertips!

Revolutionary 270° Triple-Surface-Spanning Green Laser Line

Building upon the success of its predecessor, the DT50 incorporates an enhanced green aligning laser, powered by in-house developed Enhanced Laser Diode and Prism System.

Extreme Digital Accuracy Powered By Brand-New Technology

The DT50 leverages cutting-edge patented Camer-optix Imaging Sensor (CIS) that offers an exceptional digital accuracy of up to $\pm 1/32''$ on its IPS display, regardless effects of dust, water or scratches.
